Division of Industry Trials (DIT)
Foundation Research Program (FRP)

Senior Clinical Research Associate

The responsibility of this position is to provide expertise when appropriate to NSABP DIT member institutions regarding the coordination, collection, review and monitoring of incoming site related information and patient data. They will also schedule and conduct monitoring calls with sites for the review of this information. Works closely with the DIT Research Nurse Specialist (RNS) on the team, staff at main member institutions and their satellite sites as he/she assists with the facilitation of new DIT Phase I, II and III industry funded clinical trials from concept through development and launch and continues throughout the life of the trial. He/she will act as a resource to answer queries regarding all aspects of the trial under the guidance of the RNS on the team. In addition, the candidate will assist and participate in the development of educational programs for DIT member institutions.

This position reports directly to the Director of the Division of Industry Trials

Ideal Candidate will have:

- 3 to 5 years Oncology research experience
- Certified Clinical Research Associate (CCRA) certification required
- The ability to work with minimal supervision on multiple projects
- Knowledge of regulatory standards, FDA and GCP for industry trials
- Bachelor degree preferred
- Proficiency in Microsoft Office applications

Please fax resume to Betty Trocchio at 412-330-4645 or email to human.resources@nsabp.org.
